12 x Dafilon®	DS24		3/0	USP (2 metric)

89,-  
Euro

100 years  
of industrially  
manufactured sterile  
sutures from B. Braun

#### Monosyn® – the gold standard in soft tissue surgery

- Polyglyconat, midterm absorbable (14d)
- gastrointestinal surgery, gynaecology, obstetrics, urology, mucous membrane, skin closure
- superior initial knot tensile strength
- pH-independent degradation
- ideal for ligatures

#### MonoPlus® – strong suture for demanding tissue

- Polydioxanon (PDO) long term absorbable (35d)
- abdominal surgery, orthopaedics
- ideal for prolonged wound support
- great strength
- soft and pliable

#### Dafilon® – well priced suture for skin closure

- Polyamid 6.6, non-absorbable
- skin-closure, fixation of drainages and catheters
- strong and reliable
- good histocompatibility

\* Natural suture materials... have fallen into disuse because of the pronounced inflammation they induce and monofilament synthetic absorbable materials that present better biological behaviour are preferred. Miguel G.S et al (2006) J Mater Sci. Tissue reaction and surface morphology of absorbable sutures in vitro exposure.
